FIREGRIP

The protective firemen's glove with a high level of resistance to abrasion and puncturing as well as protection from radiant heat and contact heat.

>> the palm and the back of the hand are made from specially-tanned Shearguard® split (hide) leather

>> cut protection + heat insulation made from a Nomex®/KEVLAR® knitted fabric

The **FIREGRIP** model offers ideal properties to meet all types of requirements faced by the auxiliary and rescue services. Safe working, optimum protection against cuts and sufficient heat insulation – all this is optimally assured through the use of Nomex® and KEVLAR®.

The palm and the back of the hand are made from specially tanned Shearguard® split (hide) leather which ensures high levels of mechanical strength.

KEVLAR® Nomex® Porelle®

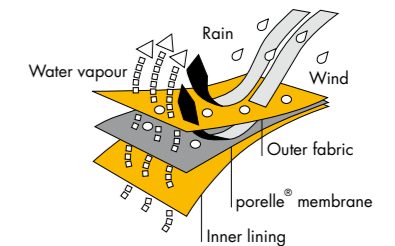

- >> the palm and the back of the hand are made from specially-tanned Shearguard® split (hide) leather
- >> porelle® membrane as a moisture barrier (waterproof and breathable)
- >> finger sidewall is made from coated Nomex® (orange coloured)
- >> lining material is made from a Nomex® / KEVLAR® knitted fabric which protects against cuts and provides
- >> heat insulation
- >> Nomex® knit trim

NEW DIMENSION

The firemen's (protective) glove with optimal tactility and a maximum secure grip.

>> also available with an extra long leather gauntlet and a deflectable Velcro closure on the opening of the gauntlet

>> porelle® insert as a barrier to moisture

The **NEW DIMENSION** model provides ideal quality characteristics for all applications. Among other things, secure work is optimally assured through the inclusion of the materials Nomex® und KEVLAR®. The palm and the back of the hand are made from specially tanned hightech-tan® leather which ensures a high level of tactility.

As an alternative to the knit trim, the glove is available with a leather gauntlet.

**KEVLAR®/ProtexM®
Nomex® Porelle®**

- >> the palm and the back of the hand are made from specially tanned hightech-tan® leather which ensures a high level of tactility
- >> porelle® membrane as a moisture barrier (waterproof and breathable)
- >> finger sidewall is made from coated Nomex® (orange coloured)
- >> the lining material is made from a KEVLAR® /ProtexM® knitted fabric which protects against cuts and provides heat insulation
- >> Nomex® knit trim (alternatively: leather gauntlet)
- >> overall length 32cm (approx.) (size 10)

KEVLAR® and Nomex® are brands of E.I. du Pont de Nemours and Company.
