## Penkert's tried and tested protective glove is ideal for heavy duty rescue operations.

Perfect sensitivity in the fingertips, maximum grip security, optimum tactility and a high level of breathability.

# BRAVEMAN

The safety glove for auxiliary and rescue services.

>> with 3M reflective stripes

>> extra long safety gauntlet and a sewn-in knuckle protector made from Suprotec (special foam)

>> cut protection + heat insulation made from 100% KEVLAR®

The tried and tested leather gloves from Penkert offer ideal conditions for all applications associated with the auxiliary and rescue services. The physical safety of the emergency staff always takes centre stage. Reliable hand protection is one of the key requirements. With the **BRAVEMAN** glove you are on the safe side in all situations and help not only yourself, but others too.

**Economic:** due to the glove's good cleaning characteristics and longevity.

**Reliable:** due to the glove's heat-resistant and water-repellent hand part made from black leather.

**Safe:** due to the knitted glove made from 100% KEVLAR® branded fibres which act as heat insulation and protect against cuts.

- >> hand part made of leather which is heat resistant and water repellent
- >> KEVLAR® knit glove as a heat insulator and cut protector
- >> knuckle protector made from a special foam, approx. 5 mm thick
- >> gauntlet, approx. 20 cm long, made from flame-resistant canvas
- >> overall length of the glove approx. 40 cm (alternatively, the gauntlet is made from split (hide) leather
- >> 3M reflective stripes (yellow / silver / yellow) diagonally, on the back of the gauntlet
- >> width of the gauntlet can be adjusted by a Velcro closure
- >> karabiner hook
- >> category II in accordance with EN 388:2003
