

LIFEFIGHTER

Protective gloves for auxiliary and rescue services in accordance with EN 388

August Penkert
Technische Leder- und
Kunststoffherzeugnisse

These firemen's gloves are first and foremostly intended for technical operations. In the course of firefighting, i.e. when the gloves are directly exposed to flames, leather shrinks and hardens.

If firefighting is the main intended activity, we would like recommend textile firemen's (protective) gloves, e.g. our FIREDEVIL PREMIUM, FIREDEVIL 911, FIREDEVIL 911 X-Treme FLASH PRO PREMIUM and FLASH PRO models.

Technical description

Firemen's protective gloves in accordance with EN 388 (previously EN 659:1996)

- >> palm and the back of the hand are made from a water repellent and heat resistant chrome tanned grain leather (approx. 1.2mm) for optimum tactility
- >> 100 % Kevlar® knitted glove (approx. 65g/pair) as protection against cuts and heat insulation
- >> leather pulse protector and knuckle protector
- >> a long split (hide) gauntlet (approx. 15 cm long)
- >> 3M reflective stripes (orange) on the circumference of the gauntlet
- >> karabiner hook
- >> glove is completely sewn using yarn made from 100% KEVLAR® branded fibres
- >> overall length approx. 35cm
- >> can be delivered in sizes 8, 9, 10, 11 and 12 (special sizes are available upon request)
